FRUIT TREE
CATALOGUE

2020

Fruit Tree supply is limited in some varieties,
pre order to avoid disappointment.

ALMONDS

Product Code	Fruit	Variety	Description	Pollinators	Fruiting Season	Retail
5152	Almond	All-in-One (also known as Fatnut)	No.1 almond for home orchards. Heavy crops of soft-shell nuts with sweet, flavourful kernels. Needs less winter chilling than others but a hot summer to ripen. Frost hardy. Height: 4.5m	Self fertile	Late	\$54.99
18286	Almond	Burbank	Medium sized nuts with a soft shell. Noted for their excellent flavour. Good drainage and sun required .	Semi self fertile	Late	Unavailable in 2020
8523	Almond	Garden Prince	A highly ornamental yet productive dwarf form of the edible almond. Beautiful soft pink spring blossoms followed by medium sized sweet nuts. Self fertile but does better with a partner.	Self fertile	Late	\$59.99
5153	Almond	Monovale	Hard-shell nuts with good flavour. A heavy cropper and good pollinator. High health variety.	Self fertile	Late	\$54.99

APPLES

Key to Apple Graft Heights:

M9: Dwarf tree height 3m. Suits well drained, fertile soils. Not suitable for heavy clay soils. Requires tree support due to shallow root system.

M26: M27: Dwarf best in good, free draining soil can be grown without tree support in sheltered areas.

MM102: Height 4-5m.

MM106: Semi Dwarf - height 4.5m. Good on most soils, better suited for wet ground.

Pollination - Apples are normally self-fertile, or at least partially, but fruit set can be improved through cross-pollination with other apple varieties planted nearby.

Trees on neighbouring properties will also assist pollination. Some of the best all-round pollinators are 'Braeburn', 'Gala', 'Golden Delicious', 'Liberty' 'Peasgood nonsuch' and 'Splendour'.

Crab apples are also noted as being good pollinators for eating varieties.

Product Code	Fruit	Variety	Description	Pollinators	Fruiting Season	Retail
N/A	Apple	Adore (M106)	Adore fruit is tasty, crisp and juicy. The fruit ripens mid season and stores well for 2-3 months. Black spot resistant so is very easy to grow. Self fertile. (Cultivar: Delfloga).	# (see pollination note above)	Mid	Unavailable in 2020
N/A	Apple	Ariane (M9)	Ripening in late summer, Ariane trees produce medium sized fruit with a sweet/sharp balanced flavour. The fruit is delicious eaten straight from the tree or refrigerated for winter eating. Black spot resistant. Self fertile.	# (see pollination note above)	Mid	Unavailable in 2020
5154	Apple	Autento (Dwarf)	Bright red skin. Cream flesh has a nice texture and is firm, sweet and juicy. Grows in a tidy pyramidal shape. Shows good disease resistance.	# (see pollination note above)	Mid	\$59.99
N/A	Apple	Ballarat	A large, green apple with a red blush and creamy white flesh. Ballarat is very vigorous, an excellent cooker, a good cropper, and is notably disease-resistant. Heritage apple.	# (see pollination note above)	Late	Unavailable in 2020
5156	Apple	Blush Babe (Dwarf)	Delicious full-sized crispy red fruit. Good natural disease resistance and little pruning is needed. Grows to just 2 meters tall with a mop-head habit.	# (see pollination note above)	Early	\$59.99
5196	Apple	Ballerina Bolero (Columnar)	The world's most compact apple tree! Attractive white tinged pink spring blossom with shining green eating apples with a golden blush. Grows to 3-4 m tall by 30 cm wide	# (see pollination note above)	Mid	\$54.99
5194	Apple	Ballerina Maypole (Columnar)	Masses of large beautiful carmine spring flowers followed by large purple red crab apples. Ideal for making jelly. Grows to 3-4 m tall by 30cm wide	# (see pollination note above)	Mid	\$54.99
5197	Apple	Ballerina Polka (Columnar)	The world's most compact apple tree! Green skin, blushed red when exposed to the sun. Crisp and juicy with a very good flavour. Grows to 3-4 m tall by 30cm wide	# (see pollination note above)	Mid	\$54.99
5198	Apple	Ballerina Waltz (Columnar)	Medium to large fruit with a solid red skin on exposed areas. Crisp and juicy with a slight tang. Suitable for fresh fruit, drying and cooking. Grows to 3-4 m tall by 30cm wide	# (see pollination note above)	Mid	\$54.99
5195	Apple	Ballerina Samba (Columnar)	A truly stunning spring display with vibrant carmine blossom and bronzy red new growth. In summer masses of very decorative, deep red crab apples make great jelly. Grows to 3-4 m by 30cm wide.	# (see pollination note above)	Mid	\$54.99
35409	Apple	Baujade (M26)	New French Granny Smith type apple, ripening late in the season. Medium size, sweet and aromatic. Well suited to warmer areas.	# (see pollination note above)	Late	\$49.99
5155	Apple	Belle de Boskoop (M106)	A large yellowish russeted apple. Popular as a cooking and eating apple. It is firm, crisp and tart. Full flavoured and gets sweeter in storage. Stores for 3-4 months and more. Heritage apple.	# (see pollination note above)	Late	\$49.99
5263	Apple	Blenheim Orange (M106)	One of the most famous English apples. Orange yellow, slightly russet skin. Large, crisp, sweet, juicy flesh that is rich and aromatic with a distinctive nutty flavour. Cooks well. A true dual purpose apple.	# (see pollination note above)	Mid to Late	\$49.99
8465	Apple	Braeburn (M27)	Discovered near Motueka, this crisp sweet apple is a favourite of many. Stores well.	# (see pollination note above)	Late	\$49.99
36224	Apple	Braeburn (M102)	Discovered near Motueka, this crisp sweet apple is a favourite of many. Stores well.	# (see pollination note above)	Late	\$49.99
2890	Apple	Braeburn (M106)	Discovered near Motueka, this crisp sweet apple is a favourite of many. Stores well.		Late	\$49.99
10347	Apple	Bramleys Seedling (M102)	Popular cooker with firm, tart and acid flesh yet sweet with a good flavour and plenty of juice. Medium to large round fruit. Excellent keeping qualities. Hardy and vigorous tree. Heritage.	# (see pollination note above)	Mid to Late	\$49.99
5157	Apple	Bramleys Seedling (M106)	Popular cooker with firm, tart and acid flesh yet sweet with a good flavour and plenty of juice. Medium to large round fruit. Excellent keeping qualities. Hardy and vigorous tree. Heritage.		Mid to Late	\$49.99
8482	Apple	Cox's Orange (Pippin) (M26)	Semi-sweet dessert apple. Rich, aromatic, nutty flavoured flesh makes this older variety still hugely popular. Red flushes on light yellow skin.	# (see pollination note above)	Early to Mid	\$49.99
1312	Apple	Cox's Orange (M106)	Sharp and tangy flavour. Medium sized flat apple.	# (see pollination note above)	Early to Mid	\$49.99

N/A	Apple	Divine (M9)	Fruit is mildly sweet flavoured with moderate acidity and light cottony crisp flesh- very similar to Royal gala. Late summer picking. Black spot resistant.	Self fertile.	Late	Unavailable in 2020
N/A	Apple	Egremont Russet 9M106)	Very rich sweet, nutty flavour, with very firm flesh and distinctive thick olive green-brown skin. Vigorous tree yet with compact growth - suitable for container growing. Heritage Apple.	# (see pollination note above)	Early	Unavailable in 2020
N/A	Apple	Fuji (M9)	Super sweet, super juicy, super crisp Japanese apple. Stores very well for several months.	# (see pollination note above)	Mid	Unavailable in 2020
N/A	Apple	Gala (M9)	Wonderful apple with reddish-orange skin, striped over yellow. Crisp, dense, aromatic flesh with nice blend of sweetness and tartness, rich flavour.	# (see pollination note above)	Mid	Unavailable in 2020
8467	Apple	Golden Delicious (M102)	Produces a very sweet honey flavoured fruit especially when tree ripened	# (see pollination note above)	Mid to Late	\$49.99
